Notes:

- For this application, it is recommended that this product be installed on a concrete base as designed by a local Engineer.
- The installation of this product on an aggregate base will provide an acceptable performance. For a superior performance, this product can be installed on a concrete base.
- De-icing salt shall not be used on this product.
- These products meet the following design guidelines for accessible paths:
 - Slip resistant paver surface
 - Paver joint openings do not allow the passage of a sphere greater than 1/2 in. (13 mm) in diameter
- Tumbled or embossed pavers could result on surfaces or edges unsuitable for applications requiring accessibility design consideration.

Legend

RESIDENTIAL

 **Pedestrian:** Pedestrian use (e.g. patios and walkways).

 **Residential / Vehicular:** Residential vehicle use (e.g. driveways).

COMMERCIAL

 **Pedestrian only:** Pedestrian at all times, no cars, service vehicles or other mobile equipment (e.g. courtyards, parks and pedestrian walkways).

 **Pedestrian Plaza:** Primarily pedestrian but occasionally subjected to service vehicles (e.g. maintenance, snow removal or emergency vehicles).

Secondary streets: Roadways with mostly automobile traffic and occasional trucks and bus traffic (e.g. residential streets, local roads)

Main streets: Roadways with general traffic mix and where heavy vehicles are a regular component of the daily traffic volume (e.g. boulevards, collectors and arterials).

Parking lots: Parking areas and access ways for cars, SUVs and pickup trucks occasionally subjected to delivery and garbage trucks (e.g. parking and access ways for malls, offices and multi-storey residential buildings).
